

At Cellar 22, our wine philosophy is centred around the belief that wine is not just a beverage, but an art form that enhances your experience.

We curate our wine list with meticulous care, seeking out exceptional wines from renowned vineyards and hidden gems alike. Each wine we select embodies the passion, craftsmanship, and terroir that make it a true expression of its origin.

In addition to presenting a selection of classic favourites, we also embrace innovation and celebrate emerging trends in the world of wine. We look forward to introducing our guests to some unique and limited-production wines that showcase the creativity and experimentation of winemakers pushing the boundaries, and a diverse range of varietals, regions, and styles.

We are proud to support sustainable and organic winemaking practices, as we believe that responsible stewardship of the land contributes to the overall quality and integrity of the wines we serve. Our commitment to sustainability extends to our partnerships with wineries that prioritise environmental responsibility and social consciousness.

We believe in the power of wine to elevate flavours, create memorable moments, and foster a sense of conviviality. Our wine list offers a carefully curated selection, so whether you are an adventurous explorer seeking new discoveries or a connoisseur with refined taste, our team is committed to helping you discover your perfect wine.

Join us in celebrating the art of wine as we invite you to explore our wine list, raise a glass, and embark on a journey of flavour, heritage, and discovery.

Cheers,
